

Our Mission

We are committed to providing community-based activities that foster personal growth, skill development, and increased independence for individuals with developmental disabilities.

Our mission is to promote community integration, teach socially acceptable behavior, and empower individuals to learn self-advocacy skills, ensuring they can thrive in inclusive, supportive environments alongside individuals without disabilities in Maryland. At USS, we don't just care beyond limits; we support every journey.

Our Story

As parents with a child with a disability, our founders developed a deep passion for providing high-quality care that truly makes a meaningful difference. Their personal journey of navigating systems, advocating for their child, and seeking compassionate support inspired the creation of Ultimate Support Services, Inc.

They understand the challenges that families face because they have lived them. This shared experience shaped the foundation of USS: empathy, respect, and an unwavering commitment to person-centred care.

Today, they are proud to serve individuals across Central, Western, and Southern Maryland, offering comprehensive support services that empower people with developmental disabilities to live independent, fulfilling, and dignified lives.

We Don't Just Care Beyond Limits,

We Support Every Journey

Our Services

Personal Supports

Our Personal Supports offer one-on-one assistance to help you stay independent and confident every day. From personal care and meal preparation to skill-building and community engagement, our compassionate team supports your goals and respects your choices. We focus on helping you grow stronger, more capable, and more connected, one step at a time.

Community Living (Group Homes)

Our Community Living homes provide safe, comfortable, and welcoming environments that support independence and a sense of belonging. You'll share a home with peers, receive 24/7 professional support, and enjoy opportunities to participate in community activities. Each home is fully accessible and built on respect, dignity, and your personal goals. It is a place to call home, surrounded by care and friendship.

Supported Living

Supported Living provides you with the freedom to live in your own apartment while receiving tailored support that suits your lifestyle. Whether you need help with daily routines, budgeting, transportation, or managing your health, our team empowers you to stay in control of your life. You choose where and how you live; we simply make it easier.

Nursing Support Services

Our licensed nursing team provides personalized health support, including consultations, care coordination, and delegated nursing tasks. Whether you need help managing your medication, monitoring chronic conditions, or staying connected with your healthcare providers, we ensure that every aspect of your care is handled with skill and compassion. Professional care that keeps you safe, healthy, and thriving is guaranteed.

Transportation Services

Because independence means getting where life takes you, we make it easy for you to access medical appointments, work, and community events safely and comfortably. Our trained drivers, well-equipped vehicles, and flexible scheduling provide you with the freedom of movement. Every trip is about safety, dignity, and reliability.

Community Development Services

Our Community Development programs help you gain practical skills for work, independence, and social connection. Through guided workshops, real-world learning experiences, and community engagement, you'll grow your confidence, communication skills, and employability. Every goal is personal, and every achievement is celebrated with enthusiasm. With us, you can build skills, confidence, and purpose; your future starts here.

Respite Care Services

Our Respite Care Services give family caregivers the time they need to rest and recharge while ensuring individuals with developmental disabilities receive skilled, compassionate support in a safe environment. Our trained staff steps in so caregivers can attend to their own health, personal commitments, and well-being without compromising the quality of care their loved one receives.
